

## THE **BRCA** FOUNDER OUTREACH STUDY

Women and men with a *BRCA* gene mutation have a greater risk of developing several types of cancer. Most of those at risk do not know that they carry a *BRCA* mutation or the steps they can take to reduce their cancer risk.

The BFOR Study will provide genetic testing for common *BRCA* mutations for women and men of Ashkenazi (Eastern European) Jewish ancestry. 95% of American Jews are Ashkenazi.

There is no cost to participate in BFOR. Participants must be age 25 or older, have at least one grandparent of Ashkenazi Jewish (Eastern European) origin, and reside within the metropolitan areas of Los Angeles, Philadelphia, Boston, or New York.

*BFOR is an independent research initiative, headed by leading experts in the fields of cancer research and genetics.*

*Learn more at [BFORStudy.com](http://BFORStudy.com) | 1-833-600-BFOR.*

*Genetic testing provided by Quest Diagnostics.*

### BFOR EXECUTIVE COMMITTEE

**Kenneth Offit, MD, MPH**, *Memorial Sloan Kettering Cancer Center, New York City*

**Mark Robson, MD**, *Memorial Sloan Kettering Cancer Center, New York City*

**Beth Karlan, MD**, *Cedars-Sinai Medical Center, Los Angeles*

**Judy Garber, MD, MPH**, *Dana Farber Cancer Institute, Boston*

**Susan Domchek, MD**, *Basser Center for BRCA, University of Pennsylvania, Philadelphia*

**Katherine L. Nathanson, MD**, *Abramson Cancer Center and Basser Center for BRCA,*

*University of Pennsylvania, Philadelphia*

**Nadine Tung, MD**, *Beth Israel Deaconess Medical Center and Harvard Medical School, Boston*
